BIOGRAPHY

While on stage, **Orpheum Black** deploys a universe with polished aesthetics and a beautiful rock energy carried by a **duo with captivating vocals and varied influences**. A true artistic alliance. Friends since always, Melodie (vocals/ keyboard), Greg (vocals/guitar), and Romain (guitar) founded Orpheum Black in 2019, quickly joined by Paskal (percussions) and Gauthier (bass) who will leave their place to Alexis and Nathan in 2022.

After a first EP («Act I». - 2020) and thanks to their first album Sequel(s) (2021 - Blood Blast/ Nuclear Blast), **mixing the codes of music with those of theater and cinema**, this quintet from Orleans quickly knew how to make a place in the rock landscape. Armed with unwavering determination in 2022, they signed up for a 25-concert tour of France.

Their second album "Outer space" will be released on May 5, 2023 and will be accompanied by several single releases, including a two-part short film.
